

Rollsafe® – the clear solution on the floor.

With Rollsafe® floor mats you will glide about your office with ease for many years. These unique crystal-clear mats let the beauty of your floor shine through. Additionally the many standard forms available can help expanding on the accent of your décor. Indeed the possibilities are endless, with our custom design service even fulfilling individual form ideas.

Benefits at a glance:

- 8 year guaranty against breakage
- Made of high-quality Makrolon® – 100% recyclable
- Extremely robust and extremely durable
- Highly transparent and neutral color plastic sheet
- PVC-free, odorless, and free of toxic chemicals
- Minimal gliding resistance for caster chairs
- Castor chair resistant
- Slip resistance: Surface (R9 DIN 51130), Lower surface
- Fire resistance
- High scratch resistance
- With a textured surface
- Compatible with floor heating systems
- Ideal for people with allergies

RS Office Products

Rollsafe®

makrolon®

Top quality backed by a long guaranty.

A quality floor mat must meet the most stringent demands day in and day out: caster point loading, UV radiation from the sun and even occasionally burning cigarettes. Our confidence in Rollsafe® mats to fulfill these requirements is proven by our 8 year guaranty. We can offer this only because we use the finest material: polycarbonate, the same material used in bullet proof glass and airplane windows.

Rollsafe mats protect not just your floor, but also the environment. The polycarbonate can be 100% recycled into valuable new products. Additionally they are completely odorless and non outgassing since they contain no PVC or vinyl.

Rollsafe® with anchor grips

For softer flooring such as carpet, we recommend Rollsafe® with anchor grips. Lots of small, rounded anchor grips keep your mat in place without damaging the flooring material. For plush, thick pile carpets we suggest our Series 14 and for lower pile carpets our Series 13.
Thickness: 2,8 / 3,5 mm,
Length: 3,0 / 2,8 mm.

Rollsafe® with antiglide layer

For hard flooring such as parquet, tile or stone we recommend Rollsafe® with our proprietary antiglide layer VAB®. During the manufacturing process we thermally weld this layer to the polycarbonate-sheet to make one integrate unit. Thereby Rollsafe® mats with VAB® remain in place over its life without any sticky glue residues.
Thickness: 2,0 / 3,5 mm.
