60 × 60 cm | 90 × 60 cm
120 × 60 cm

Thickness:

2,0 mm

Colour:

Dark grey

Material:

[NBR/SBR] Rubber

Surface:

smooth

Fire behaviour:

Bfl-s1 according to EN 13 501-1

Hardness:

94 Shore A

Slip resistance:

R9

Noticeable elegance in the workplace

For anyone who values writing comfort and a flawless table surface. Purosens® Silk table mats have a pleasantly smooth surface that makes precise drawing and writing particularly easy. The material is neither too warm nor too cold to the touch. The opaque table mats cover any damage to the work surface. They also provide reliable protection against scratches and dirt.

In addition to its pleasant surface material, Purosens® Silk also scores points for its material properties. The rubber is sustainable, free of PVC, phthalate plasticisers and chlorinated polymers, and therefore odourless.

Purosens® Silk stands for sustainability and reliability thanks to its exceptionally long service life. Even after decades, there are hardly any signs of wear and tear, and even under extreme conditions, the placemats remain flawless in terms of functionality and appearance. This enormous robustness results from the unique elasticity and wear resistance of the material rubber.

Abstract

- protects the table with simple elegance
- prevents or conceals damage
- free from harmful plasticisers (e.g. bisphenol A)
- vinyl-free and odourless
- for extremely heavy use
- good slip resistance (R9)
- flame retardant (Bfl-s1 according to EN 13 501-1)
